Sheriff Rhodes Callback 1

EXT. BACKYARD - DAY

Six sheriff cars pull into the Morgan Farm driveway with lights blazing.

The sheriff and Deputy Cooper get out of one car and 15 other deputies get out of the other cars.

As one, they check their weapons.

SHERIFF RHODES

Robert Morgan is an old friend but something has caused him to lose his grip on reality. Let's try to take him alive. Keep in mind, he's a stubborn man. He will not go quietly. He's responsible for over a dozen deaths today and there are several missing people that he might be responsible for. We don't know what to expect in there, so be careful. I want three of you to enter in the front with Cooper and I. Four of you enter through the back. The rest of you hold down the exterior. Don't anybody be stupid!

They split up.
